# **GRADUATE SCHOOL OF**

# **INTERNATIONAL STUDIES**

## **EWHA WOMANS UNIVERSITY**

### **EDUCATIONAL GOALS**

Ewha GSIS is a center of academic training and research that produces global professionals with the ability to conduct theoretical analysis about the phenomena and characteristics of expanding and developing global society and to apply such knowledge to real-world issues. Since its establishment in 1997, Ewha GSIS has been Korea's leading professional graduate school of international studies and is still devoting its efforts to become a competitive center for cultivating professional female global leaders, not only in Asia but also in the world. With the nation's most prominent faculty body constituted of both Koreans and international experts, an excellent job placement record for graduates, domestic and foreign internship experiences, diverse interchanges with foreign institutions/organizations, and distinguished Ph.D. programs, Ewha GSIS continues to be at the forefront of international education in Korea. Students of Ewha GSIS will be offered Ewha's specialized curriculum, multi-dimensional courses for each concentration taught by regional experts and field specialists, and practice-oriented case studies and academic research that will cultivate global leaders with the highest globally competitive capabilities. Moreover, since the Department of Korean Studies joined Ewha GSIS in 2006, Ewha GSIS has experienced even greater levels of academic synergy.

### **ACADEMIC PROGRAM**

#### **1. International Studies Program**

The International Studies Program offers all courses taught in English in the areas of International Trade, International Business, Development Cooperation, and International Relations. Students develop systematically the academic and practical capability required for each concentration. In addition, each student individually builds a specialized field by selecting from a unique matrix curriculum, known as the Certificate Program, which includes Negotiations and Conflict Management, East Asian Studies, Global and Regional Cooperation, Global Social Responsibility, International Legal Studies, International Public Relations, Multiple Stakeholder Engagement, and Global Women's Studies. Upon completion of these courses the student receives a certificate. Students participate in internship programs offered by renowned domestic and international institutions that have strategic alliances with Ewha GSIS, acquiring opportunities for field experiences and receiving active career consultations. Moreover, students can pursue a second Master's degree at George Washington University (GWU) through the Ewha-GWU dual M.I.S. degree program.

#### **International Trade**

The International Trade concentration is designed to meet the growing need for international trade specialists in Korea and abroad. This program studies the theory, formulation, and history of international trade and negotiation. Students also are expected to develop a broad understanding of how economic, business, and political factors interact in shaping the international trade environment.

#### **International Business**

The International Business concentration is designed for students who wish to pursue internationally oriented careers in various kinds of private and public sectors dealing primarily with international business and management. This program offers special expertise in international business, finance, and management.

#### **Development Cooperation**

Development Cooperation prepares students for future work in various multilateral and bilateral international organizations with a special emphasis on international development. Through an interdisciplinary array of courses in economic development, democracy, and international development cooperation in developing countries, students in this major acquire a broader understanding of the processes of economic, political, and social change and development in the developing world.

## **International Relations**

International Relations aims to train students to cope better with the ever-changing dynamics of international affairs. This concentration is designed for students interested in international law and organizations, diplomatic relations, global governance, and international conflict. Students in this program are trained to have expertise in the areas of conflict management, regional and global integration, the generation of collective goods, and collective decision-making in the international arena.

## **2. Korean Studies Program**

The Korean Studies Program is for people who ponder the question of what Korea is, people who are interested in pursuing an in-depth study of Korea, and people with an affinity for and enthusiasm toward Korean studies. The Korean Studies Program is designed to provide students with both theoretical and practical training in building a concrete perspective about Korean culture and language through a multifaceted study of Korean society, culture, language, socio-psychological structure, and values. The program also aims to enhance students' capability to research and teach Korean as a foreign language as well as enable students to obtain professional knowledge for developing pedagogical skills and the ability to evaluate materials for Teaching Korean as a Foreign Language. As such, the Korean Studies Program encompasses two fields: Korean Culture and Teaching Korean as a Foreign Language.

### **Korean Culture**

Through various research methodologies and with an interdisciplinary approach combining anthropological, theological and other perspectives, the Korean Culture program pursues a many-sided study of Korean society, culture, socio-psychological structure, and values. The program also aims to cultivate cultural analysis skills and suggests new perspectives regarding elements of Korean culture such as religions, folkways, history, and the arts.

### **Teaching Korean as a Foreign Language**

With recognition that Teaching Korean as a Foreign Language (TKFL) is one dynamic subfield of Applied Linguistics, both the M.A. and Ph.D. programs in TKFL have prepared a systematic and comprehensive curriculum that specializes in the acquisition, analysis, pedagogy, and use of Korean as a foreign language. The M.A. program provides both pre- and in-service professional training in TKFL to produce competent and knowledgeable teachers of KFL to teach and conduct research at KFL institutions both domestic and abroad. The Ph.D. program in TKFL recruits and trains a critical mass of Korean applied linguists, who will become thoroughly familiar with theory and research in such areas of specialization as Korean Second Language Acquisition and Korean for Specific Purposes and capable of conducting independent and in-depth research in issues of KFL.
