INVITATION
to
YOUNG ASIAN CULTURE SHARING FORUM 2018
Building Cultural Bridges Across Asia

You are cordially invited to attend the Young Asian Culture Sharing Forum 2018: Building Cultural Bridges Across Asia, sponsored by the HansaeYes24 Foundation with support from The Asia Foundation and Ewha Womans University.

The Young Asian Culture Sharing Forum will take place on Friday, April 20, 2018, at Ewha Womans University's Lee Sam-Bong Hall (EEC-B4) in Seoul, Korea.

The Forum is organized in the belief that mutual understanding of the unique cultures of Asia will enrich the human spirit and encourage economic, social, political, and security development and cooperation among Asian countries. The Forum will highlight the creative contributions of next-generation leaders who are working in new, thoughtful, and inspired ways to share their arts and cultures across Asia. The Forum will cover the whole spectrum of culture, but will emphasize literature, music, visual art, and performance art.

The main theme of the Forum is: What are the themes and types of art and literature pursued or favored by the young generation in your country? As a sub-theme, one of the following two options is given: (i) Can you classify them as Asian art and literature? How are they related or contrasted to the art and culture in other regions of the world? Or (ii) How are they related to or different from those of the past generations' art and culture in your country?
